

Beebe – Sussex

BEEBE CORONAVIRUS SCREENING LINE AND TESTING

If someone is in need of an assessment, **call Beebe's Coronavirus Screening and Assessment Line, at 302-645-3200.** The caller will be screened and assessed for possible COVID-19 testing or another appropriate level of care. If the caller needs testing, the provider will place an order that can be used at one of the Referral-Based Testing sites once an appointment is scheduled. The line will be staffed seven days a week from 8 a.m. to 4 p.m. If a caller has a provider order, the line will assist with scheduling the patient at one of the Beebe Testing sites.

COVID-19 SCREENING, TESTING, & TREATMENT AT BEEBE

Beebe Healthcare is proud to offer screening for COVID-19, which involves a series of questions about your current health, and testing for COVID-19, which is a nasal or oral swab, at designation Beebe locations. In some cases, COVID-19 tests are sent out to other labs for processing; in other cases, they are processed at Beebe's Clinical Lab at the Margaret H. Rollins Lewes Campus. Beebe is partnering with the Blood Bank of Delmarva on using donated plasma from those who had COVID-19 to help treat those who are currently hospitalized with COVID-19.

Beebe opened a COVID Positive Care Center in Georgetown so patients diagnosed with COVID-19 who do not need to be hospitalized can receive face-to-face care, including provider visits, lab, imaging, and more. Interpreter services are available.

I FEEL I NEED TESTING, WHAT SHOULD I DO?

1. Reach out to your provider.
2. If you do not have a provider, call 302-645-3200 to be screened and assessed by a Beebe provider.
3. If the provider deems a test necessary, Beebe will reach out to you to schedule a visit and instructions will be provided.
